

**FEBS**  
*Letters*

# SPECIAL ISSUE OPPORTUNITY

DEADLINE: 31-12-2026

**Clarissa J. Nobile** and **Agostinho Carvalho** are guest editing a forthcoming *FEBS Letters* Special Issue dedicated to timely review articles on **human fungal pathogens**. The issue will highlight emerging advances in fungal pathogenesis, host-pathogen interactions, immunity, diagnostics, therapeutics, and related areas of broad interest to the field. **Conference speakers** and **participants** with ideas for high-impact review articles are warmly encouraged to contact the guest editors to discuss potential contributions.

CLARISSA J. NOBILE

Professor of Molecular and Cell Biology and  
Kamangar Family Chair in Biological Sciences

University of California Merced, USA

[cnobile@ucmerced.edu](mailto:cnobile@ucmerced.edu)

*FEBS Letters* is a **not-for-profit society journal** for the rapid publication of timely research and reviews in the molecular life sciences. We accept **format free submissions**. We are a hybrid journal — publish for **free** or publish **Open Access**.

AGOSTINHO CARVALHO

Principal Investigator, Life and Health  
Sciences Research Institute (ICVS)

University of Minho, Portugal
